**KEYSTONE
GOAT PRODUCERS
ASSOCIATION, INC.**

**Producers working together to promote
the meat goat industry in Pennsylvania**

WHO WE ARE

The Keystone Goat Producers Association (KGPA) was formed in Lycoming County on September 24, 2005 by a group of producers with the same goals and objectives in mind. From that meeting, a name was created and the plans were laid out to proceed in forming the KGPA. In January 2006, a member vote was taken to elect KGPA's first Board of Directors. These Board members share knowledge and experience from different levels of the goat producing industry. The Board believes that the members of the KGPA are the KGPA and that every vote counts.

While KGPA is a statewide association, we include members from other states. Membership is open to any goat producer interested in helping promote the goat industry. Our members vary from those with operations consisting of hundreds of goats to individuals who are just learning about them.

The purpose of KGPA is to advance the meat goat industry through education and promotion in Pennsylvania. As members, we are committed to quality and excellence of meat goat production, to supply a wholesome and healthy product to our customers.

The Keystone Goat Producers Association is committed to positioning the goat industry into a vital part of Pennsylvania's agriculture. Toward this end, the Association's members work together with other associations, with governmental agencies, and with other agricultural organizations, to:

- Promote meat goats as a vital source of long term, stable income in agricultural operations.

- Support, maintain, and improve the Meat Goat Industry in Pennsylvania.
- Foster professionalism in the business of Meat Goat Production.
- Promote and encourage meat goats as a recognized class in 4-H and FFA livestock shows.
- Offer opportunities for the promotion of high quality breeding stock through shows and sales.
- Provide our members with information to help them successfully breed and raise quality meat goats.
- Provide support to all segments of the goat industry as it relates to food, fiber, and pets.

KGPA is a non-profit association and, as such, is managed entirely by its members. Annual elections are held for the purpose of allowing the Association's active members to elect Officers and Directors who will serve and support the Association, its members, and Pennsylvania's goat industry.
